STATEMENT

2 February 2022

STAGE 2 LOADSHEDDING TO BE IMPLEMENTED UNTIL MONDAY MORNING

City Power will implement stage 2 load shedding from 11h00 today, Wednesday 2 February until 05h00 Monday, 7 February.

This comes after Eskom experienced a shortage in generation capacity following a trip in units at its Kusile and Kendal power stations. Loadshedding will continue until 05h00 on Monday.

Following Eskom's directive of stage 2 loadshedding, City Power will consequently implement the same schedule starting at 11h00 today until 05h00 on Monday, 7 February 2022.

Below is a confirmation of the City Power blocks that are going to be affected by stage 2 load shedding today:

11H00 – 12H30: Block 2 & 6

12H00 – 14H30: Block 3 & 7

14H00 – 16H30: Block 4 & 8

16H00 – 18H30: Block 5 & 9

18H00 – 20H30: Block 6 & 10

20H00 – 22H30: Block 7 & 11

22H00 – 00H30: Block 8 & 12

NB: Extra 30 minutes are added to allow for the restoration process to take place.

City Power customers are urged to use electricity sparingly as the power system is constrained. As the supply may be restored at any time, customers are urged to treat their electricity supply points as live at all times.

City Power will keep customers updated via @CityPowerJhb
